

INFORMATION/REQUIREMENTS FOR NEW HOME CONSTRUCTION

1. Documents required for Architectural Control Committee review:
 - a. Plot Plan - include location of all that apply: slab, driveway (left or right side of house), sidewalks, porches, mail box, shrub beds and size (depth), street trees and type.
 - b. Blueprints - include square footage of heated space, Exterior Color and Material Selection Worksheet (attached and made a part of these requirements as Exhibit #1), elevations (front, sides, and rear), roof pitches (side to side and front to back), Roof attachments (copper cupola, etc), roofing material including brand and color.
2. New home construction plans will be in accordance with the Auberge' Building Specifications (attached and made a part of these requirements as Exhibit #2).
3. All front yards must have an automatic sprinkler system installed, including a drip irrigation system for shrub beds and street trees. Front yard irrigation system will be designed and connected to the master water meter system for all Auberge' front yards.

We the undersigned agree to comply with the Declaration of Covenants, Conditions, and Restrictions of the Auberge', as well as the Auberge' Building Specifications attached.
